Attendees: See attached distribution list (Atch 1)

1. rTerra Solar Field Development. Frank Epps, representing rTerra (www.rterra.com), and Mark Forest, representing The Delahunt Group discussed a proposed solar array development north of the flight line on farm property in Sandwich near Country Farm Road. There are 238 acres of land available and could support a solar array up to 42 MW. Frank and Mark previously met with Commander Throop (USCG), Sheriff Cummings, and the Sandwich Water District. Frank noted there are two 23 kV for interconnecting the solar array. He said he is working on a power purchase agreement with the Sheriff (3-4 MW), USCG, Sandwich Water District, and the MA Maritime Academy. He is hoping to use one of the NSTAR 23 kV lines that feeds the USCG area north of the flight line for interconnection. Frank also noted he's met with the Cape Cod Commission, Association to Preserve Cape Cod, and the Cape and Vineyard Electric Cooperative. Frank estimates the first 6 MW will be installed in the Spring 2013.
2. MMR Solar Project Updates – Rose Forbes briefed the landfill solar project. She said the Defense Logistics Agency is preparing a Request for Proposals (RFP) and is planning to send it out this October.
3. PAVE PAWS Wind Turbine Project – Steve Mellin announced the RFP has been submitted for the PAVE PAWS wind turbines.
4. Update on MMR projects: There was not enough time for the agencies to discuss their energy related projects. Time will be allotted at the next Energy Committee meeting for this purpose.
5. Next Energy Committee meeting was not scheduled. Rose said she would likely schedule the next meeting in Oct 2012.

6. Please contact Rose Forbes at 508-968-4670 x 5613 (rose.forbes@us.af.mil) if you have any questions, comments, or suggestions about these minutes, ideas for the next meeting's agenda, or the MMR Energy Committee.
